SYSTEM FOR MANAGING COMMUNICATION NETWORK

ABSTRACT

PROBLEM TO BE SOLVED: To **convert** abstract policy information into a **parameter** **corresponding** to a **network** **technology** .

SOLUTION: A policy detailing functioning part 100 **converts** an operation **parameter** included in an abstract request (abstract policy information) 201 for a user's network into...

...device and sets the parameter in the device. Namely, a policy management functioning part PAD **converts** an operation **parameter** (action **parameter**) included in the abstract policy information into a parameter depending upon the network technologies, and a policy execution functioning part PEF **converts** a **parameter** obtained by the conversion into a parameter depending upon the type of the set object...
